

# Erodium 'Bishops Form'

## Selling

End of March to April

## Features

Compact, mat forming foliage, with deep pink cup shaped flowers with a dark green vein, from mid Spring.

## Benefits

An abundance of flowers gives colour all summer through to the autumn. Excels in sunny borders, and can be used to cascade through rock gardens and as a ground cover to suppress weeds.

## Story

Originating in the Balearic Islands, this natural hybrid was bought to the UK in the 18<sup>th</sup> century, and has become a popular garden plant.
