

Lupin 'Lulu'

Selling

April to May

Features

Dwarf habit and elegant spikes of mixed colours, from late Spring through the Summer.

Benefits

An excellent garden plant, creating a good display. Easy to grow due to the dwarf form, it doesn't need staking and will grow in almost any site. Mature plants produce 10–12 stems, and will repeat flower if dead headed.

Story

This dwarf, easy to grow Lupin was bred specifically for the amateur gardener and small domestic gardens.
