

Euphorbia ‘Craigieburn’

Selling

Mid February to March

Features

Whorls of dark reddish purple foliage all year round with green-yellow flowers in late Spring.

Benefits

An easy to grow, disease resistant perennial with a sturdy habit. The flowers fade rather than dying, therefore prolonging its interest.

Story

From the garden of the same name in southwest Scotland. Craigieburn Garden is a stunning new garden, created in an old design style, on the site of a previous garden.
