

Aster Alpine

Selling

May to June

Features

Daisy-like flowers, the collection includes, 'Albus' – white with a yellow eye, 'Goliath' – soft blue, and 'Happy End' – pink shades, May to June.

Benefits

Easy to grow, compact with masses of flowers. Cheerful and full of colour. Ideal for a rockery or front of border.

Story

Commonly known as Michaelmas Daises, they are naturally found in Northern America, with a few found in South America and Europe.
